

# Mentoring Day

**SATURDAY  
APRIL 22  
2023**

## Mentoring Day

i-tri girls are taught to visualize their goals and define what it takes to achieve them.

Each year, i-tri brings together professional women from the East End and New York area to help our girls visualize the possibilities in their futures and talk about what it takes to get there. Through this opportunity, i-tri girls can realize their true potential and practice real-life networking skills.

*We are always looking for Mentors—please consider participating and sharing your knowledge with our girls.*
