

MENTORING

Day

i-tri girls are taught to visualize their goals and define what it takes to achieve them.

SATURDAY, APRIL 25

Each year, **i-tri** connects our girls with inspiring professional women from the East End and New York area, empowering them to dream big and explore their future potential. These mentorship opportunities not only help our girls visualize what's possible but also give them hands-on experience with real-life networking. **Join us as a Mentor** and make a lasting impact—your guidance and expertise can help shape the leaders of tomorrow!
